

Core Ideas Underpinning Western Economies

Kam Phung, PhD

The three Cs represent core ideas in western economies that are at the roots of many of the pressing challenges that we face today

- Colonialism
- Capitalism
- Consumerism

The three Cs are rooted in the ideas of property rights/ownership and property accumulation

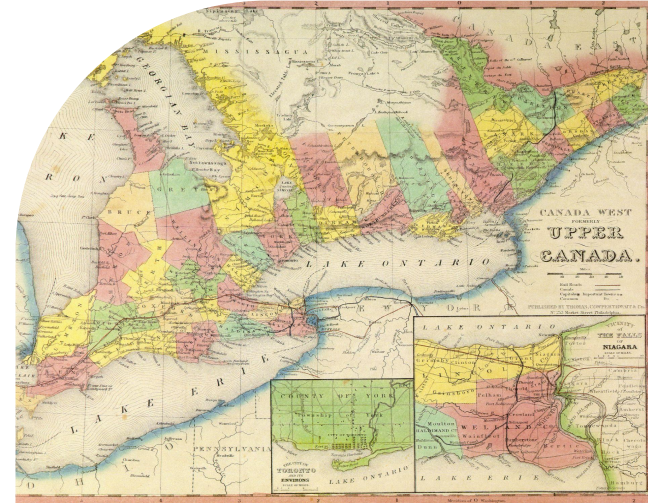

The three Cs run so deep that it is difficult to imagine or understand a world without them

Colonialism

a practice of domination, which involves the subjugation of one people to another... also involves political and economic control over a dependent territory.
